***Drawings***

The drawings are objected to because figure 2 fails to show any labels for the flow diagram for boxes 16, 18, 20 or 22. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

***Allowable Subject Matter***

Claims 1, 3-7, 9-18, and 20-27 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art fails to teach or suggest the combination of elements as amended. The recently relied-upon references are overcome by the amendments. The most relevant art is 6,578,763 to Brown, which deals with a reusable container for detergents. The container has a bar code label, which has been ruled out in the prior prosecution. The container also lacks other claimed features. There seems to be no obvious motivation to combine this reference with the pill bottles relied upon in the last office action, nor the reference dealing with automated laundry service. There is also no obvious motivation to alter this reference in a combination with Pfeiffer, which is closest to claims 26-27.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
